April 4, 2016

DR. DIANA L. IGNACIO

BAC Chairman Industrial Technology Development Institute

SUBJECT: Supply, Delivery, Installation and Commissioning of Digital Rebound Resilience Tester

Dear Dr. Ignacio;

This is in connection with the letter of Engr. Recelito Poblete of Gryke Scientific Instruments Trading, dated March 31, 2016, requesting to reconsider mechanical holder for the Rebound Resilience Tester instead of vacuum-type holding device by suction pump.

Please be informed that we preferred the tester with additional vacuum-type holding device, as specified in our PR. Basically, the Tester has a mechanical clamping type already. Thus, the provision of vacuum-type with the existing mechanical clamping device, or the combination of the two devices, will accommodate variety of samples that are submitted to ITDI-STD.

For your information.

Very truly yours,

IMELDA B. MENDOZA

End-User
