Industrial Technology Development Institute
ASSOCIATION OF EMPLOYEES IN SCIENTIFIC ENDEAVOR

Strengthening the Voice of Science Professionals

As a recognized body under the Department of Science and Technology (DOST), AESE serves as the primary advocate for the Institute's workforce. The association is mandated to:

- Protect Employee Rights: Act as the collective voice in safeguarding the professional interests of its members.

Inspired by Technology, Driven by Innovation

- Promote Holistic Well-being: Enhance the moral, social, and economic welfare of scientific and administrative personnel.
- Facilitate Management Dialogue: Maintain an active line of communication with leadership to ensure a collaborative working environment.

A Commitment to National Development

Guided by the principles of unity and cooperation, the AESE remains a cornerstone of the Institute's success. By fostering professional growth and camaraderie, the association ensures that ITDI's human capital is empowered to meet the Institute's mission: providing world-class scientific and technological services for national progress.

"The association fosters a culture of professional excellence, ensuring that our scientists and employees are supported as they drive innovation for the nation."
